Montaggio / *Assembly*4

Lista componenti / *Items list*.....8

Descrizione sistema

Il sistema a grandi superfici TF della **The Formwork srl** è caratterizzato da una notevole flessibilità e varietà di applicazioni per differenti tipi di strutture.

Il sistema permette la creazione di elementi modulari da assemblare in cantiere ed è indicato anche per l'utilizzo per getti a facciavista. Infatti è possibile personalizzare il manto in legno che può essere quello tradizionale oppure con rivestimento fenolico.

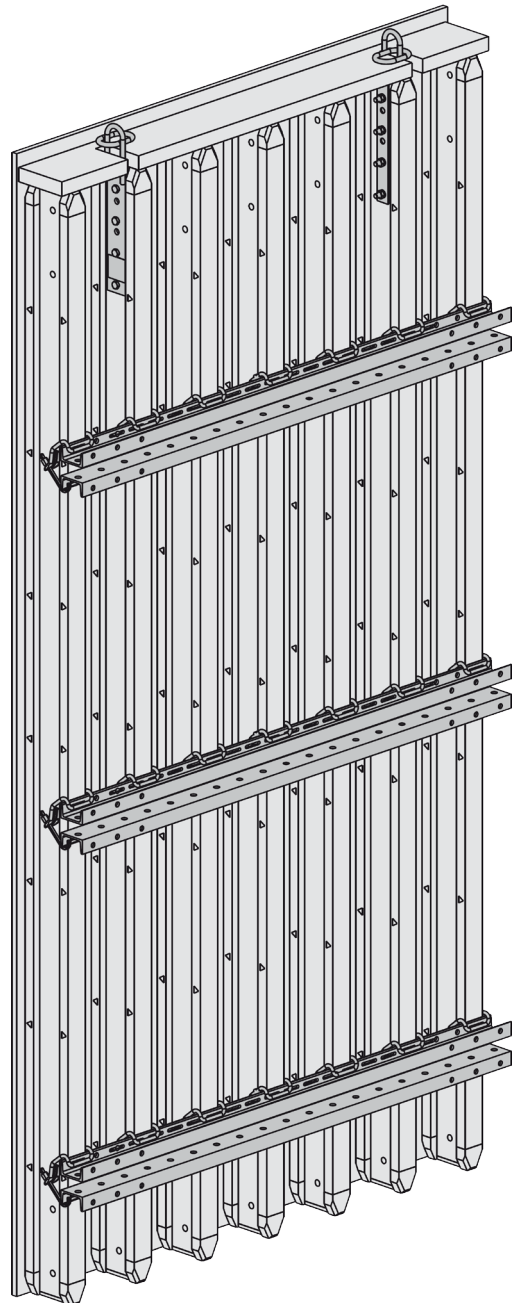

Gli elementi possono essere preassemblati in azienda in base al disegno oppure assemblati in cantiere.

System Description

The Formwork srl large-area formwork Tf is a flexible system suitable for a wide variety of applications.

The system allows the creation of modular elements to be assembled and is also indicated for the use of jet structure with facing. In fact you can customize the wood surface that can be traditional or phenolic coated.

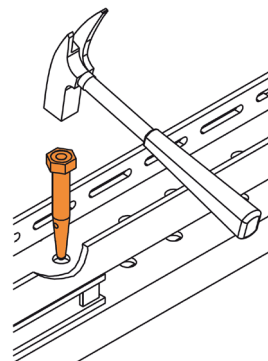

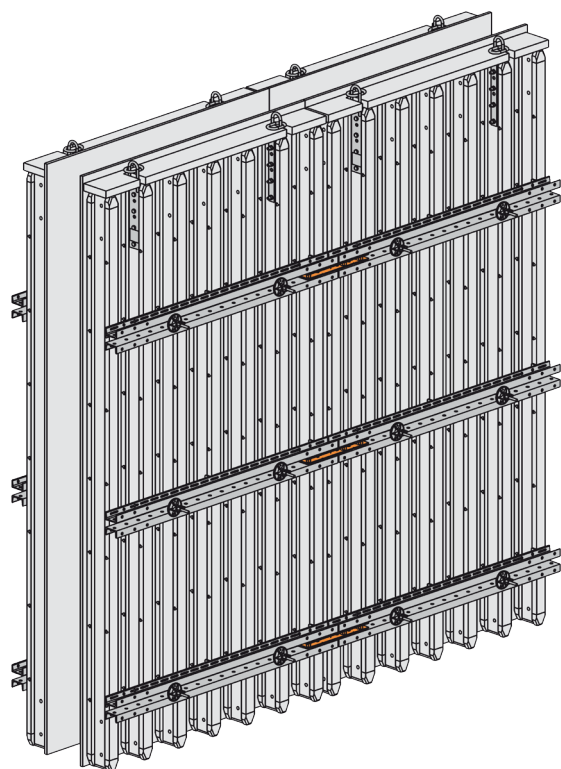

The elements may be preassembled in the company according to the drawing, or assembled on site

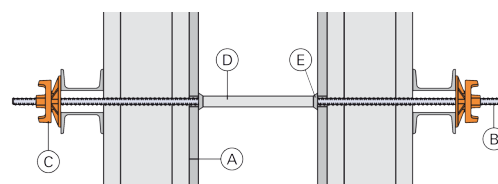

Assemblaggio moduli / Assembly

Paretti rettilinee / Linear walls

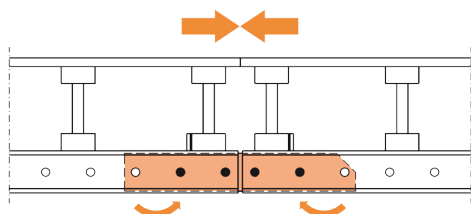

Particolare 2 / Detail 2

Particolare 3 / Detail 3
